FOREWORDS

Rector of Universitas Padjadjaran 2015-2019

In line with the new spirit of the Quality Assurance System of Higher Education of the Ministry of Research, Technology and Higher Education, General Directorate of Learning and Student Affairs, Directorate of Quality Assurance 2016, Universitas Padjadjaran has conducted various alignments of the internal quality assurance system within the environment of Universitas Padjadjaran. The alignments are adapted to the development of higher education as well as several regulations in the field of higher education, in accordance with the mandate delegated to Universitas Padjadjaran as a State University with Legal Entity.

Consequently, the target is not only to meet the quality standards set by the Ministry of Research, Technology, and Higher Education but also to exceed the National Standards of Higher Education both in the academic and non-academic fields, as well as provide benefits for institutions, society, and nation.

The continuous quality improvement implemented by the Universitas Padjadjaran is to ensure the fulfillment of higher education standards in a systemic, systematic, sustainable and comprehensive manner. The implementation is carried out gradually as an effort to make quality assurance as a culture in various academic and non-academic activities. The culture of quality implies that the mindset, attitude and behavior are based on the cycle of setting, implementing, evaluating, controlling, and improving the standards. The culture of quality at Universitas Padjadjaran is directed to improve competitiveness and provide benefit to the community at local, regional, national, and international level.

In order to realize the quality culture mentioned above, high appreciation were given to the Quality Assurance Unit which has formulated and drafted the Guideline of Quality Assurance of Universitas Padjadjaran, 2016 edition.

FOREWORDS

Dr. Hj. Rd. Funny Mustikasari Elita, M.Si.

Praise and gratitude to the God Almighty for His blessing in the completion of this Quality Policy of Internal Quality Assurance System. This policy is an elaboration of the vision, mission and objectives of Universitas Padjadjaran in an effort to improve the quality of higher education and development of Education, research and community service (*Tridharma*) based on in-depth analysis of evidence which leads to the learning outcomes and product/program impact.

Unpad's academic development of quality assurance is neither centralized nor fully autonomous, but accommodates both proportionally. The SPMI Unpad policy is in line with the PT Law No. 12 of 2012 and Permenristek Dikti no 44 of 2015 concerning National Higher Education Standards, Permenristek Dikti no 32 of 2016 concerning Accreditation of Study Programs and Higher Education, and Permenristek Dikti No. 62 concerning Higher Education Quality Assurance Systems.

This policy encompasses 4 (four) areas, namely standard policies of learning, policies of research, policies of community service, and policies of management and service. The four main points are translated into 36 (thirty six) master standards which consists of national standards set by the Government and local standards set by the university. This policy is to be used as a reference in quality assurance system of higher education in Unpad. It is expected that the this policy will create a sustainable quality culture in every unit in Unpad.

By the realization of this policy, we would like to express our gratitude to all parties who have participated in the formulation of the policy. Criticis and suggestions for the improvement of this book will be appreciated. We hope that this book will become an inspiration for the development of SPMI Unpad in improving quality and making quality as the spirit in every activity, hence accelerate the realization of a sustainable culture of quality

SPM-UNPAD

CHAPTER II INTRODUCTION

The background of the implementation of Internal Quality Assurance System (hereinafter will be referred to as SPMI) is in the framework of ensuring the sustainability of a healthy and dignified organization, in accordance with its nature which has academic freedom, scientific autonomy and university autonomy. The autonomy of Unpad as the provider of higher education is strengthened by the existence of rector regulations which are issued to ensure the independence of Unpad's management.

SPMI is a systemic activity of higher education quality assurance autonomously or independently by the institution to determine, implement, evaluate, control, and improve the organization of higher education in a planned and sustainable manner. SPMI Unpad was developed in accordance with historical background, basic values which inspired the founding of Unpad, number of study programs and human resources, facilities and infrastructure with inputs from internal and external parties. SPMI is carried out through 5 (five) main steps, abbreviated as EIECI, namely :

Establishment, Implementation, Evaluation, Control and Improvement of Higher Education Standards. Those five main steps are implemented in Unpad SPM internally. The five main steps in SPMI Unpad are closely related to the National Standard of Higher Education set by the Ministry of Research, Technology and Higher Education (hereinafter will be referred to as Menristek-Dikti) and the Higher Education Standards set by the University and refer to the National Standard of Higher Education (SN Dikti). SN Dikti is a standard unit which includes the National Standards of Education plus the National Standards of Research and the National Standards of Community Service. Meanwhile, the Standards of Higher Education set by Unpad consist of a number of standards in the academic and non- academic fields which exceed the SN Dikti.

Based on Law No.20 of 2003, concerning the National Education System, Government Regulation No.19 of 2005 concerning National Education Standards, the SPMI Unpad activity is a program which has to be implemented by all units within the Unpad. Its implementation and standards are regulated by the Regulation of Minister of Education and Culture No. 44 of 2015 concerning National Standards of Higher Education and Regulations of Minister of Ministry of Research, Technology and Higher Education on Higher Education Quality Assurance Systems and related

Rector Regulations. Thus, the fulfillment of Unpad Higher Education Standards can be implemented and improved in a systemic and sustainable manner which will ultimately grow and develop a quality culture. In detail, the SPMI standards can be described as follows:

- a. The standard of SPMI Unpad is an elaboration of the Regulation of Republic of Indonesia Government No. 51 of 2015 concerning the statutes of Universitas Padjadjaran and related Rector regulations.
- b. The standards of SPMI Unpad are statements to implement the planning, implementation, evaluation and improvement of SPMI in a sustainable manner.
- c. The standards of SPMI Unpad direct all working units within Unpad to provide academic services to students according to predetermined standards.
- d. The standards of SPMI Unpad direct all working units within Unpad to create transparency and accountability to stakeholders, especially parents/ guardians of students and the community.
- e. The standards of SPMI Unpad direct all parties/ working units within Unpad to achieve targets in a sustainable manner.
- f. The standards of SPMI Unpad direct all parties/ working units within Unpad to increase targets in a sustainable manner.

- (10) The realization distinctive excellence in Unpad which uphold the nobility of local culture and national culture in the diversity of world cultures.;
- (11) The establishment of cooperation with various universities and institutions in the field of quality assurance both nationally and internationally.

B. The Strategies of SPM Unpad

The Internal Quality Assurance System of Unpad implements a strategy that includes:

- a. Improving the quality of academic and non-academic quality standards in accordance with the latest regulations by utilizing human resources (UPM and Quality Commissions and teams);
- b. Developing and controlling of highly competitive SPM implementation programs by utilizing internal auditors and assessors at Universitas Padjadjaran;
- c. Empowering and strengthening of controlled activity management;
- d. Utilizing the potential of institutions and partnerships with the business and industry sector, society, government, media and other academics both nationally and internationally.

The SPM Development Strategy Model for both academic and non-academic fields is implemented based on the translation of vision and mission into strategies which based on the development phase, the focus phase on both internal and external stakeholders, and the empowerment and improvement phase as illustrated below:

Figure 1 SPM Unpad development strategy

In order to achieve the vision, mission, and strategies mentioned above, thus are able to provide satisfaction to stakeholders, SPM Unpad specifically developed a stakeholder-oriented service activity model as follows:

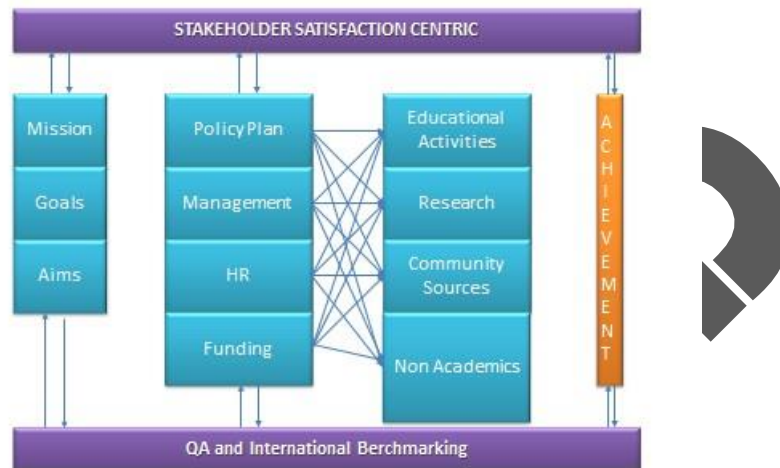

Figure 2. Quality Assurance Stakeholder Satisfaction Model

The model above is a representation which is constructed through the translation of the mission into specific goals and objectives, which in its implementation begins with policy planning, involvement of management at all levels which is supported by qualified and competent human resources and supported by the allocation of funds obtained from various sources. With the support of infrastructure, consequently the goals of learning, research, and community service activities as well as relevant non-academic activities can be achieved. During the process, quality assurance gets input from both internal and external parties as well as adapts and adopts the noble values of Sundanese culture, national standards, international standards, government needs, the needs of the business sector and the industrial sector as well as scientific and professional associations.

5.2 Principles of SPMI Implementation

a. Principles of SPMI

- e. **Stage of Standard Development:** the stage when the content of one, several, or all of the standards have to be evaluated and upgraded periodically and continuously.

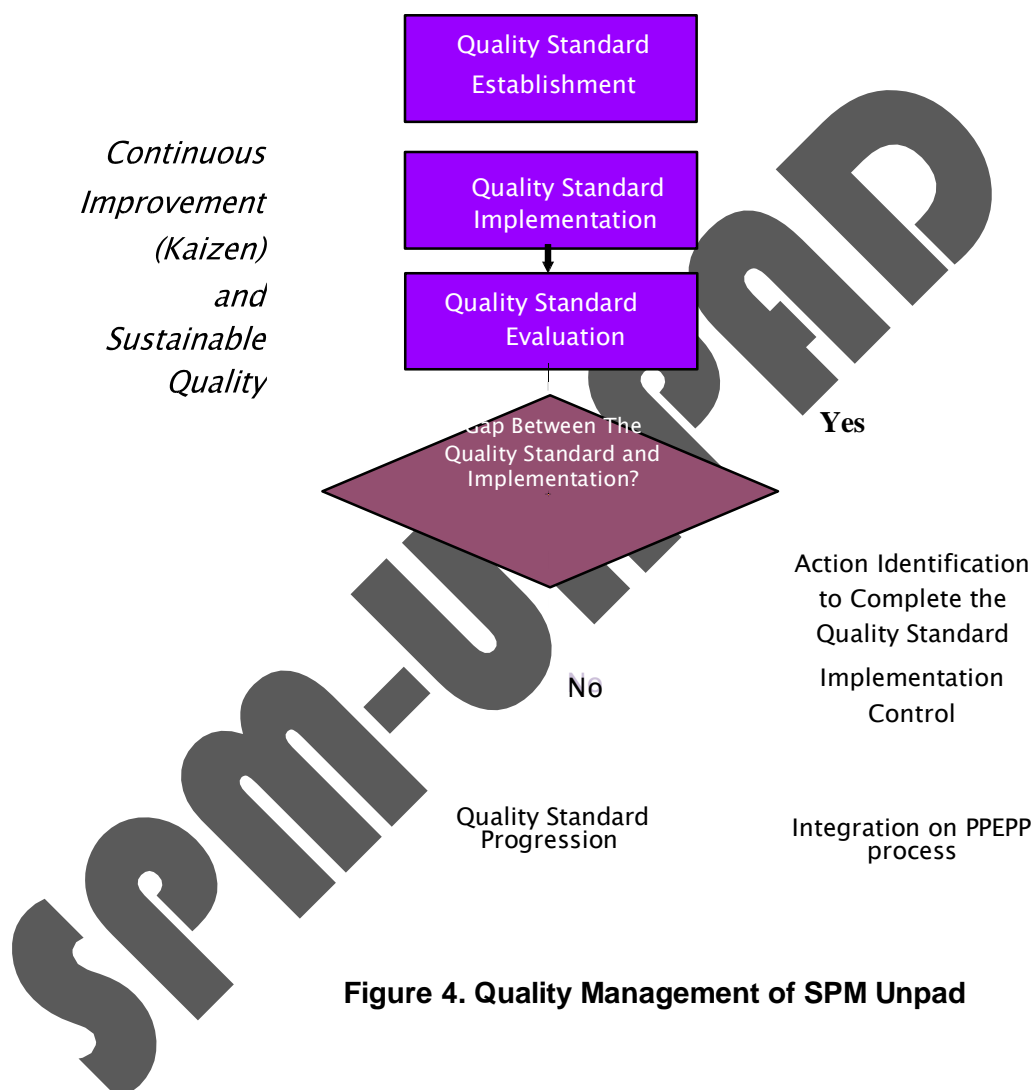

Figure 4. Quality Management of SPM Unpad

5.4. Framework of SPM Unpad

SPM Unpad developed a model of framework which can be implemented effectively and efficiently based on internal condition as well as relevant external situation. From these internal and external situations and conditions, systematic and systemic reinforcement was carried out as seen in the figure below:

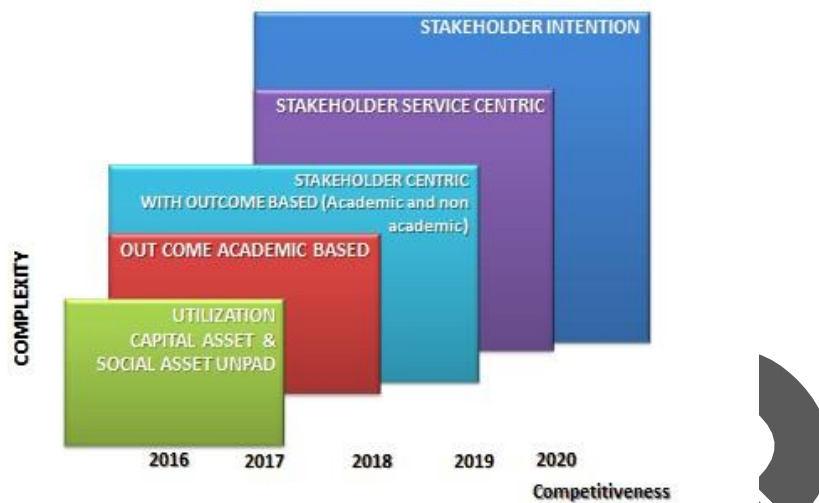

Figure 5. Framework of SPM Unpad

From 2016-2017 the main focus of SPM Unpad was the utilization of Unpad's capital and social assets, both tangible and intangible. Continued in 2017-2018 the focus of the program is outcome-based in the academic field by modeling academic corporations and empowering tangible and intangible assets and utilizing internal strengths and opportunities as well as alleviating weaknesses and threats to the organization. The focus for 2018-2019 is an expansion of the focus for 2017-2018 outcome based in the academic field which is also developed in the non-academic field focusing on both internal and external stakeholders. The focus for 2019-2020 are excellent services and strengthening the results of 2018-2019 work towards various service units in Unpad, hence in 2020 SPM Unpad is able to take off in the field of quality assurance, especially in the academics field that are in accordance with the needs and concerns of stakeholders by utilizing existing science and technology, quality culture has become a habit and need of all units so that internal and external stakeholders maintain loyalty to Unpad.

CHAPTER VI

INFORMATION ABOUT SPMI MANUAL BOOK, SPMI STANDARD BOOK AND SPMI FORM BOOK

This SPM policy is the basis for the preparation of the SPM Unpad operational work plan and budget business plan (RBA). If there is a change in the strategic environment that can hinder the implementation of this SPMI activity, then all Unpad Leaders can make adjustments and or changes to some or all of its contents with the approval of the Academic Senate. This policy is followed by implementation guidelines, technical guidelines, work instructions along with forms, and time schedules so that the implementation of quality assurance runs optimally, additionally the implementation of quality assurance in an effort to achieve various programs and activities can make it easier to evaluate and measure success according to targets which are expected.

CHAPTER VII

RELATIONSHIP OF SPMI POLICY DOCUMENTS WITH OTHER DOCUMENTS SUCH AS RENSTRA, STATUTA, PERREK, KEPREK

7.1. Relationship between SPMI Policy Documents and Renstra

Universitas Padjadjaran's Strategic Plan (Renstra) for the period 2015-2019 emphasizes the achievement of Unpad's vision to become a Regionally Competitive Research University. In the Strategic Plan includes 9 (nine) strategic targets, the relationship between SPMI policies and the nine strategic targets is as follows:

- 1) Improve the quality of human resources with responsible, excellent, scientific rigor, professional, encouraging, creative, and trust (RESPECT) characteristics. In this case, the SPMI policy establishes quality standards for lecturers and educational staff to support the achievement of graduate competence.
- 2) Improving the quality of governance and institutions with the principle of continuous quality improvement (CQI). SPMI's policy in this case is to determine the standards of governance to support the achievement of graduate competencies, research results and community service results.
- 3) Increasing the management of facilities and infrastructure that is successful and efficient. SPMI policy in this case is to set the standard of facilities and infrastructure to support the activities of higher education tridharma carried out by Unpad.
- 4) The realization of an information system in academic and non-academic fields. SPMI policy is to set the standards of information system quality that support the activities of Unpad *tridharma* of higher education.
- 5) Increasing the quality of *tridharma* of higher education which is integrated and oriented to the principal scientific pattern of Unpad. SPMI's policy is to integrate the quality of tridharma which is oriented towards the Principal Scientific Pattern which aims to improve intelligence and community.
- 6) Increased capacity for innovation and excellent policy products in the fields of health, food, energy and the environment. SPMI policy is to establish excellent policies in the fields of health, food, energy and the environment.

- 7) Increased participation of Unpad and Strategic Partners (ABGCM) to improve community welfare. SPMI's policy is to determine the standards of cooperation with the pentahelix concept, which placing not only the roles of academics, business, government, and society, but also the role of the media as an important part in carrying out the monitoring and evaluation function and even becomes an effective means of input for Unpad in developing strategic plans of tridharma programs.
- 8) The realization of an improvement in Unpad's contribution to the development of West Java (From West Java for Indonesia to the World through Sustainable Development Goals). The SPMI policy in this case is the establishment of community service standards that are oriented towards increasing the nation's competitiveness.
- 9) Increased financial independence, accountable, transparent and cost effective financial management. SPMI's policy in this case is to set a standard of financing for the success of the output, outcome, impact, and benefits of implementing the Tridharma of Higher Education.

7.2. Relationship between SPMI Policy Documents and Statutes

Regulation of Republic of Indonesia Government Number 51 year 2015, concerning the Statute of Universitas Padjadjaran, in Chapter V of the Internal Quality Assurance System states that Unpad implements an internal quality assurance system consistently and continuously as an accountability to stakeholders. The objectives of Unpad's internal quality assurance system are:

- a. Guarantee that every academic service to students is carried out according to standards;
- b. Realizing transparency and accountability to the community, especially parents/guardians of students, regarding the implementation of education according to standards; and
- c. Encouraging all parties/units in Unpad to work towards goals based on standards and continuously strive to improve quality.

Unpad's internal quality assurance system is implemented based on the following principles:

- a. Oriented to internal and external stakeholders;
- b. Put the truth first;
- c. Social responsibility;
- d. Personal competency development;
- e. Participative and collegial;
- f. Uniformity of models, and
- g. Continuous innovation, learning and improvement.

The scope of Unpad's internal quality assurance system consists of developing and implementing quality standards and auditing in the fields of education, research, community service, and student affairs. The role of the internal quality assurance system is coordinated by the Quality Assurance Unit.

7.3. Relationship between SPMI Policy Documents and Rector Regulations

The duties and functions of the Universitas Padjadjaran Quality Assurance Unit are listed in CHAPTER III Part Six article 29 of the Rector's Regulation Number 40 of 2016, concerning the Organization and Administration of the Management of Universitas Padjadjaran.
