Known,
 Head Of The Study Program Environmental science
 Doctoral

Sunardi, M.Si., Ph.D

Bandung, 3 December 2020

Eli Geminiyati, SAP

Attachment Meeting

Views/Thoughts Participant Meeting:

No.	Speaker		Description	
1	Lili Mulyatna	1	The dynamic system has not been mastered, the reviewers who master the dynamic system are hard to find, and it turns out that the title of Mr. Lili's dissertation was given to his master's degree students at ITB. Regarding this difficulty, Mr. Lili has coordinated with Mr. Hani Burhanudin (DIL alumni) to meet Mr. Hani's supervisor, namely Dr. Muhammad Tasrif.	
		2	Communication is established with the promoter. Mr. Budhi Gunawan already suggested for the trial that Prof. Chay likes to ask how far has progress been but hasn't dared to go forward because he hasn't yet completed the revision.	
		3	Publication in Geomet (Q3)	
	Sunardi, M.Si., Ph.D	1	Try contacting Prof. Sudrajat, conveying only guidance from Prof. Chay or Sir Joseph.	
2	Sri Purwanti	1	Stage permission for a name company, name from company, which is so close to the place of study, has now taken ownership from DMA to BUMN.	
		2	There are four standards that want to highlight the environment, namely: ISO 14, ISO, JRI, Standard KLHK, and the added method of participatory public. However, the method of merging remains perplexing.	
		3	The journal already exists; now try to continue for journal writing and login access. I had one discussion with Mrs. Tresna FISIP Unpad for CSR. No one from the agency can help write ideas because of all the school work.	
		4	To cut a long story short, contact has been made with the team promoter, and God willing, it will be made soon.	
		Sunardi, M.Si., Ph.D	1	Regarding licensing, please contact. For a thank you, it's enough for the position. The name can be animated. The name is for the Director of PT. The dissertation is not for publication, and according to the Head of Study Program, it's interesting that the phenomenon is not his name.
		2	4+1 standard collaboration. If it's too heavy, please limit it. The weaknesses can later be researched by researchers. Related validation: without validation, permanent work will be done. If you still want validation, please coordinate with the relevant agencies, perpetrator industry or academics.	
		3	If there is no one who can help write ideas, the Head of Study Program will find someone who can help so that there is a step forward, can dialogue via zoom, and please pay with general. Mother Sri, thank you for your love, because there is no international alone. There is an environment.	
		3	shayidah	1
2	Because the analysis pollen is spread across four countries and four continents, it has yet to confirm whether it is true or false. Plant hope species may enter all, causing an impact on the field economy. And the expert there is from Japan.			
3	Recommended by Prof. Wawan to finish all new assignments given via e-mail.			
4	The journal is currently under construction and has not yet consulted with Sir firm.			
	Sunardi, M.Si., Ph.D	1	Please deliver to Sir a firm recommendation from the Head of Study Program that plant TB not enter.	

			All because of too many species to count. 50 identified as more restricted
		2	For journals, please search for Simago.
4	Dita Augustian	1	Prof. Erri's dissertation is nearly finished, and he should return to the field, temporarily to Queen's Harbor. Dr. Yudi had not responded by the end of September. Prof. Fans don't leave many comments. A journal was still submitted to the university, but it was rejected due to a lack of funding.
	Sunardi, M.Si., Ph.D	1	Contact them again; it should frequently appear as guidance to the team. Promoter, if after three times there is no response, please report to the Head of Study Program, who will help contact Dr. Yudi.
5	dian Akbarini	1	Ready proceed UD.
